## **COMPANY PROFILE**

*Collusion is an Australian fine art music and dance ensemble. Collusion's cultural practice is underpinned by a respect for traditional art forms whilst contributing new perspectives through which to experience and enjoy fine art. Whilst this intersection of new and old sensibilities informs Collusion's original compositions and choreography, the energy of the ensemble itself imparts heart, beauty, warmth and colour.*

*Collusion's values balance excellence and inclusivity across its creative, commercial, educational and community-based projects. Collusion creates a magical world of imagination, engagement and immersion whether performing at cultural arts venues, for private events or in other community arts settings. Their diverse body of works offers programming suitable to audiences of all ages and cultural persuasions.*

## **ABOUT THE SHOW**

Power and identity come face-to-face with contemporary ballet and live music in this intimate and personal work by Collusion.

*Turbine* questions what is good and what is right. Powerful dance meets the full force of composer Thomas Green, with original music directed and performed by Collusion's Camille Barry and Benjamin Greaves. It asks what freedoms we should enjoy and what price we are willing to pay.
